

Puget Sound Partnership

our sound, our community, our chance

Setting Recovery Targets for Puget Sound

The below lists which people are involved with developing technical background material for the setting of targets.

Interdisciplinary Teams

These teams are working on objectives for reductions of four key pressures.

Shoreline alteration (marine & freshwater) including nearshore restoration

Jason Mulvihill-Kuntz and Morgan Schneider, Partnership staff conveners (jason.mulvihill-kuntz@psp.wa.gov and morgan.schneider@psp.wa.gov)

Eric Beamer, Skagit River System Cooperative

Jim Brennen, University of Washington

Scott Campbell, U.S. Army Corps of Engineers

Paul Cereghino, Washington Department of Fish and Wildlife

Melisa Holman, The Nature Conservancy

Tom Mumford, Washington Department of Natural Resources

Doug Myers, People for Puget Sound

Timothy Quinn, Washington Department of Fish and Wildlife

Kit Rawson, Tulalip Tribes

Hugh Shipman, Washington Department of Ecology

Jon Sloan, Port of Seattle

Curtis Tanner, Washington Department of Fish and Wildlife

Runoff from the built environment

Bruce Wulkan, Partnership staff convener (bruce.wulkan@psp.wa.gov)

Allison Butcher, Master Builders Association

Julie Lowe, Washington Department of Ecology

Chris May, Kitsap County

John Palmer, U.S. Environmental Protection Agency

Tom Putnam, Puget Soundkeeper Alliance

Larry Schaffner, Washington Department of Transportation

Jim Simmonds, King County

Land development (including floodplains)

Judith Leckrone Lee, Partnership staff convener (Judith.Leckrone.Lee@psp.wa.gov)

Norman Abbott, Puget Sound Regional Council

Chris Davis, The Nature Conservancy

John Jacobson, Washington Department of Fish and Wildlife

Doug Peters, Washington Department of Commerce

Kenneth Pierce, Washington Department of Fish and Wildlife

Michael Rylko, U.S. Environmental Protection Agency
David St. John, Puget Sound Partnership
Stephen Stanley, Washington Department of Ecology

Wastewater (including sewer systems and on-site sewage systems)

Duane Fagergren, Partnership staff convener (duane.fagergren@psp.wa.gov)
Dave Bergdolt, Brown and Caldwell
Michael Brett, University of Washington
Rob Duff, Washington Department of Ecology
John Eliasson, Washington Department of Health
Stuart Glasoe, Washington Department of Health
Keith Grellner, Kitsap County
Bob Hager, Lower Hood Canal Watershed Coalition
Jo Ellen Henry, U.S. Environmental Protection Agency
Julie Horowitz, Hood Canal Coordinating Council
James Hoyle, Tacoma-Pierce County Health Department
Terry Hull, Enterprise Cascadia
Andrew Kolosseus, Washington Department of Ecology
Mindy Roberts, Washington Department of Ecology
Randy Shuman, King County
David Stensel, University of Washington
Mark Toy, Washington Department of Health
Greg Zentner, Washington Department of Ecology

Indicator Champions

The below are the individuals identified as Indicator Champions; they are working with related staff to develop targets for the Dashboard of Ecosystem Indicators.

Marine/nearshore

Commercial fisheries harvest: Kit Rawson, Tulalip Tribes
Recreational fishing permits: Eric Kraig, Department of Fish and Wildlife
Salmon: Recovery Implementation Technical Team (RITT) (Norma Jean Sands, chair)
Orcas: Ken Balcomb, Center for Whale Research
Pacific herring: Kurt Stick, Department of Fish and Wildlife
Birds: Scott Pearson, Department of Fish and Wildlife
Eelgrass: Helen Berry, Department of Natural Resources
Shoreline armoring: Randy Carman, Washington Department of Fish and Wildlife, and Kathy Taylor, Washington Department of Ecology

Watersheds

Water availability: Paul Pickett, Washington Department of Ecology
Land use/land cover: Ken Pierce and John Jacobson, Washington Department of Fish and Wildlife

Toxics & nutrients and pathogens

Toxics in fish: Jim West, Washington Department of Fish and Wildlife
Toxics in sediment: Maggie Dutch, Washington Department of Ecology

Freshwater quality: Dave Hallock, Washington Department of Ecology

Marine water quality: Christopher Krembs, Washington Department of Ecology

Shellfish beds reopened: Scott Berbell, Washington Department of Health

Swimming beaches: Jessica Archer, Washington Departments of Health and Ecology

Managing implementation of the Action Agenda and engagement & stewardship

Funding for Puget Sound: Jim Cahill, Puget Sound Partnership

Action Agenda engagement: Katherine Boyd, Puget Sound Partnership

Puget Sound Quality of life index: Janelle Paglia, Puget Sound Partnership

Sound behavior index: Dave Ward, Puget Sound Partnership
